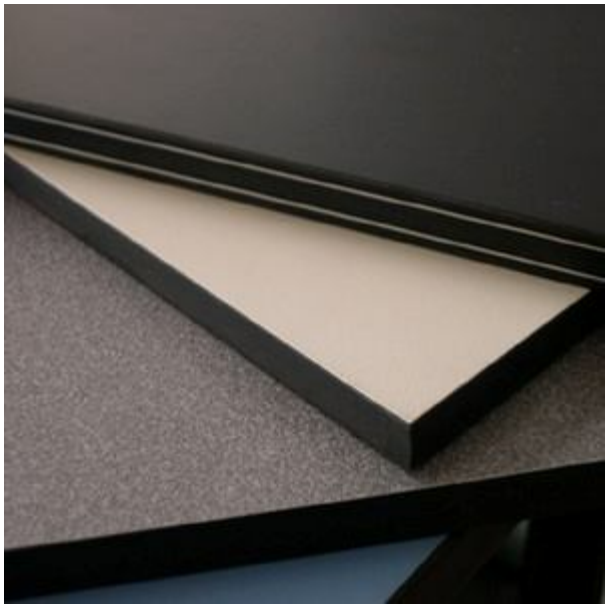
Compact Laminate



Sheets: Compact Laminate panels “High pressure Phenolic Resin” manufactured by setting a layer of overlay paper on top of a melamine resin, impregnated pattern paper and over layers of phenolic resin . impregnated Kraft paper. The whole setting is combination is then pressed at high temperature and pressure to form a sheet of high pressure laminate. Compact Laminates have a homogeneous black core with decorative surface on both sides. A wide range of colors provides limitless design flexibility.

Features: compact laminates are supplied in sheets or panels and are the most practical materials for special areas, particularly wet and high wear environments like toilet cubicles, changing rooms, wall covering in schools, sports centers, hospitals, airports and hotels.
It has high resistance to impacts, scratching, fire, water and humidity due to its high density. Furthermore, it does not decompose, is resistant to bacteria
and may be cleaned easily.

Complies to the European Standards
EN Classifications: CGS, CGF
EN 438

Toilet Partitions and Cubicles – Technical Specifications

CL 100 System

Stainless Steel Accessories with Stainless Steel Rail

Accessories

Made of corrosion and scratch resistance high quality, brushed finish stainless steel. Accessories are hygienic and antistatic having high resistance to weathering. Accessories are resistant to corrosion and pollution, domestic cleaners, disinfectants and diluted acids.

Head Rail

Made of high corrosion resistance stainless steel pipe 32mm in diameter. Attached to the pipe are the panel holders used to hold panels through screw fixation.

Other Accessories:

- Spring loaded door hinges (self closing)
- Privacy lock with indicator
- Angle brackets
- Adjustable leg
- Door Knob

Toilet Partitions and Cubicles – Technical Specifications

CL 200 System

Nylon Polyimide Accessories

Accessories

Made of high quality Nylon Polyimide which is robust, safe and functional and characterized by bright, wide range of colors and modern design making the system simple and versatile.

Head Rail

Nylon polyimide tube reinforced with aluminum. The aluminum tube can be replaced with an aluminum profile.

Other Accessories:

- Spring loaded door hinges (self closing)
- Privacy lock with indicator
- Angle brackets
- Adjustable leg
- Door Knob
